

**AMENDMENTS****In the Specification**

Please amend the specification as follows:

- 5        **Substitute the paragraph starting at page 12, line 5, with the following:**

Media handling assembly 302 holds print media 312 and routes it through printing device 300 for printing. The physical path of the print media through a printer is typically referred to as the "print path" or "print media path". Media handling assembly 302 includes components to route print media 312 through printing device ~~200~~ 300. The components can include any combination of belts, pulleys, media drive rollers, and a motor drive unit, or units (components not shown). Those skilled in the art will recognize that there are any number of media handling assembly configurations and components that can be implemented in any number of printing devices to route print media through a printing device.
